AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions, and listings of claims in the application:

LISTING OF CLAIMS:

- 1. (Original) Roof design that comprises an external sheet covering (1; 101), an insulating layer (3; 103) provided beneath the sheet covering (1; 101) and a load carrying structure (10; 110) that supports the insulating layer (3; 103), and that means (7; 107) for transporting an energy absorbing medium is provided in the insulating layer (3; 103), c h a r a c t e r i s e d in that the external sheet covering (1; 101) is corrugated, and that the surface of the insulating layer (3; 103) that faces towards the sheet covering (1; 101) has a shape that is adapted to the sheet covering (1; 101).
- 2. (Original) Roof design according to claim 1,
 c h a r a c t e r i s e d in that the means for transporting
 an energy absorbing medium constitutes a flexible hose (7;
 107).
- 3. (Original) Roof design according to claim 2, c h a r a c t e r i s e d in that the insulating layer (3; 103) is equipped with a groove (9) for receiving the flexible hose (7; 107).

- 4. (Original) Roof design according to claim 3, c h a r a c t e r i s e d in that the groove (9) is continuous and comprises straight portions and curved portions, seen in top view.
- 5. (Currently Amended) Roof design according to any of the previous claims claim 1, c h a r a c t e r i s e d in that sheet covering (1; 101) has a tile profile.
- 6. (Currently Amended) Roof design according to claim 3 [[or 4]], c h a r a c t e r i s e d in that the hose (7; 107) projects above the insulating layer (3; 103).
- 7. (New) Roof design according to claim 4, characterised in that the hose (7; 107) projects above the insulating layer (3; 103).
